Index and master data download

Flexible search for SAP documents in your ECM system even outside your ERP system

ECM viewer

Extension of Generic Object Services (GOS)

Barcode extension

Archive completeness control

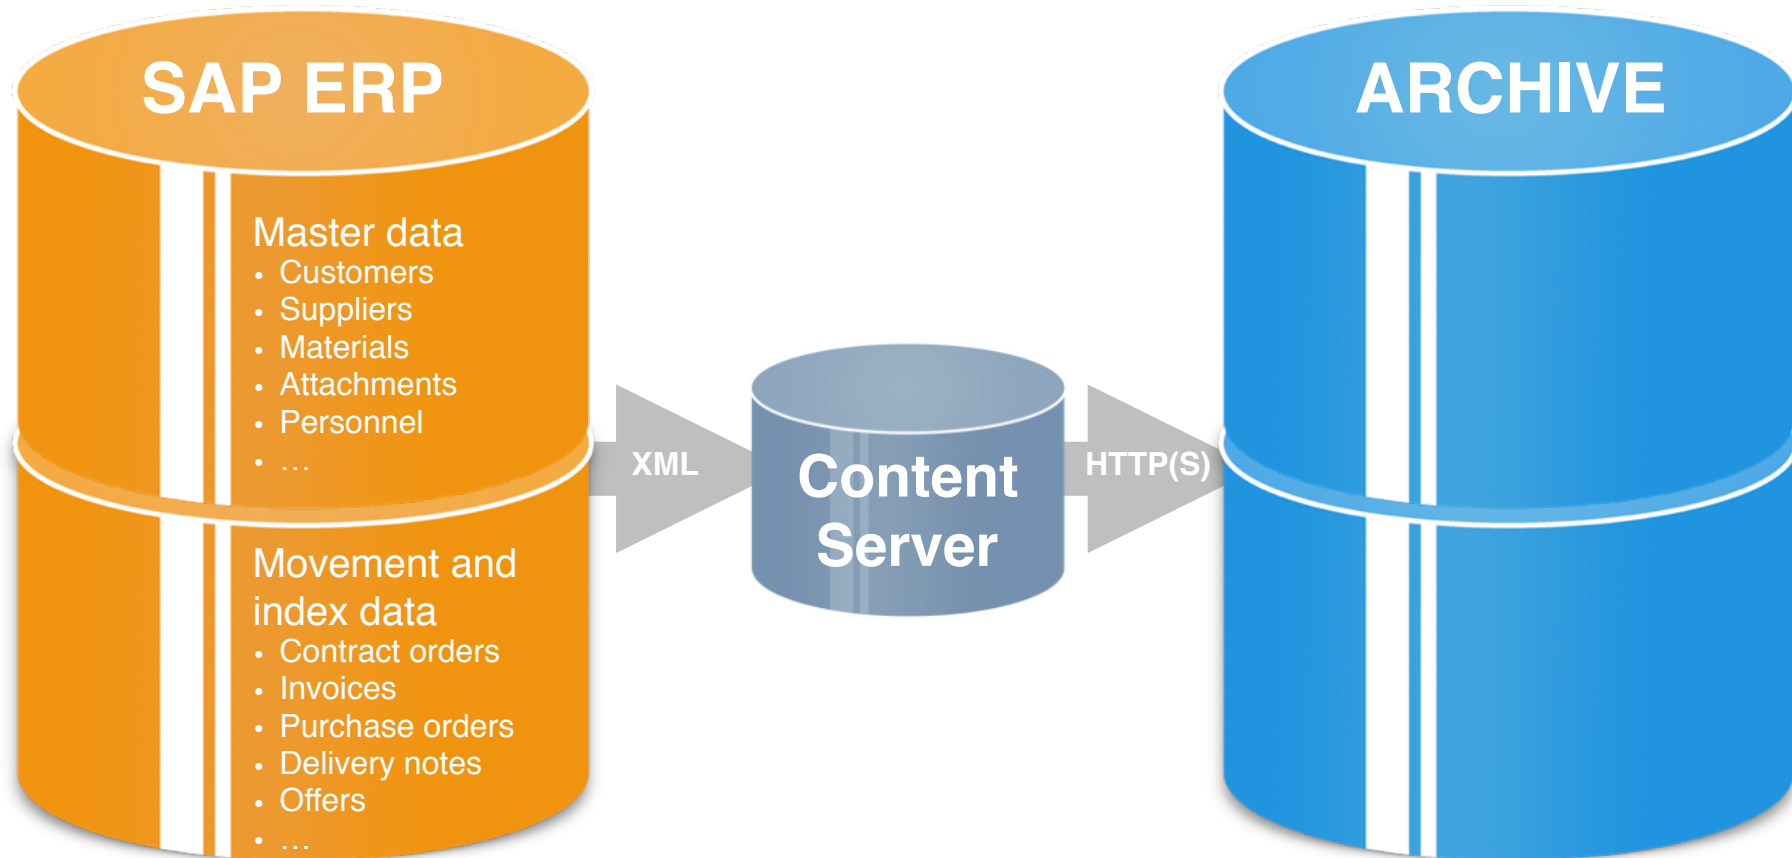

Archive transfer

VARELMANN

SCHEMATIC DIAGRAM

of index and master data download

HIGHLIGHTS

YOUR ADVANTAGES AT A GLANCE

- Indexing of documents in the ECM system using data from SAP
- Free configuration of the data to be transferred using a simple maintenance transaction
 - No programming knowledge required – data from transparent SAP tables
 - Constants
 - Predefined variables and functions (e.g., current date)
 - Extensions via user exits
- Data transfer is effected automatically via SAP events, in the batch job or manually
- Independent research in the ECM system by non-SAP users
- Index data can be changed at any time. This also applies to documents that have already been archived
- Setting up of structures in the archive, e.g., supplier or project files
- Integration into the SAP transport system
- Document access during SAP maintenance times
- Recording of all data transfers
- Incorrect data records can be reprocessed
- Product is delivered in your own namespace

TECHNICAL DETAILS

- Use of the repositories and therefore of the SAP ArchiveLink interface
- Data transfer to HTTP stream via XML
- Indexing of up to 20,000 documents per repository and hour
- Delivery in the /VBGMBH/ namespace per transport order
- Customizing is integrated into the SAP transport system

REQUIREMENTS

- SAP ERP ECC 6.0 EHP2 or later
- Tomcat server version 6.x or later
- Java 1.6
- Compatible with the following ECM systems:
 - DocuWare
 - enaio
 - keytech
- Other filing options:
 - SQL-Server
 - Filesystem

SCREENSHOT of index and master data download

The screenshot shows the DocuWare interface. At the top, there is a navigation bar with 'DOCUMENT TRAYS', 'SEARCHES', and 'TASKS'. Below this, the search results are displayed for 'VENDORS - STANDARD-SUCHMASKE'. A table lists the search results with columns for TYPE, PARTNERNUMBER, COMPANY, CITY, DOCUMENTTYPE, DOCUMENTNUMBER, DATE, PROCESS, PLANT, STATUS, and CLERK.

TYPE	PARTNERNUMBER	COMPANY	CITY	DOCUMENTTYPE	DOCUMENTNUMBER	DATE	PROCESS	PLANT	STATUS	CLERK
PDF	300000	Stahlwerk München	München	Invoice	5105600911	16.03.2016	4500000090	1000	booked	NEFFE
PDF	300000	Stahlwerk München	München	Delivery note	5000000190	31.03.2016	4500000090	1000	received	NEFFE
PDF	300000	Stahlwerk München	München	Purchase order	4500000090	31.03.2016	4500000090	1000	ordered	NEFFE
PDF	300000	Stahlwerk München	München	Purchase request	4500000090	24.02.2016	4500000090	1000	uploaded	NEFFE

PRODUCT SERVICES

We help you ensure higher document availability in your company using the document upload module. The following services will be provided to you:

- Analysis of your requirements
- Conceptualisation and implementation of data transfer to your ECM system
- Installation and configuration of index and master data download
- IT and user training workshops
- Maintenance and support
